

Gowanus Superfund docket number: EPA-HQ-SFUND-2009-0063

Joanne B. Wright to : Dennis Munhall, Docket Superfund 07/01/2009 10:13 AM

Dear EPA,

I support EPA's designation of the Gowanus Canal as a Superfund Site. I believe that i the most effective way to achieve a clean Gowanus in accordance with the high environmental and safety standards that are a part of EPA's Superfund National Priorities List program.

I don't want to leave this to private real estate interests who will only paper over the pollution and put up luxury housing as fast as they can. The chemical smell in the air gives me a headache after a while, and that won't go away if we don't do this properly.

Sincerely,

Joanne B. Wright
260 Union Street, #3
Brooklyn NY 11231
(Carroll Gardens, where the Gowanus Canal is)
